Plastic Processing

CERPLAST

"CERPLAST" is a private company, which has successfully been present on Polish market since 1985.

Thanks to our 33 years of experience in the plastics processing industry, based on the production of plastic elements, by the injection method, up to 3.8 kg.

Thanks to our continuous development, we have expanded our total plant area up to 2700 m², which means three technologically advanced production halls, the newest of which covers the area of 1000 m².

We have our own transport and storage space.

Today our offer includes:

- products for the home appliance industry,
- products for the automotive industry,
- innovative own products,
- assembly services (up to 25 details),

We also perform commissioned production.

Plastic Processing

CERPLAST

Currently Our technical facilities include:

- ✓ injection molding machines with clamping force up to 820 tons,
- ✓ manipulators and receiving robots,
- ✓ devices for thermostating injection molds,
- ✓ dosing systems for dyes and other additives,
- ✓ gantry crane for assembly of tools,
- ✓ plastic driers with molecular sieves,
- ✓ heating channel systems,
- ✓ rail busbar power supply system Canalis.

Plastic Processing

CERPLAST

Constant modernisation of the machine park improves both the quality of our products and the production efficiency.

We recover industrial water, minimize glycol consumption, use efficient cooling systems, thus reducing the negative impact on the environment.

We are a member of The Economic Club of Chodzież.

Plastic Processing

CERPLAST

Our Customers

Taking care our customers' needs we are able to produce details of the finest quality. We specialise in the production of injection molding of plastic components with a total weight of up to 3.8 kg. We offer our clients a full range of services, from the implementation of injection molds to high-volume production with just-in-time delivery.

SAMSUNG

The leader in the household appliances electronics industry, uses our services in the production of components for washing machines and refrigerators.

OLSA
OPTICAL
LIGHTING
SYSTEMS
AUTOMOTIVE

The leader in the automotive industry, uses our services in the production of components for cars of such brands as: BMW, Mercedes, IVECO, Opel, Citroen and many others.

CERPLAST

Certificates

We are in the process of implementing the IATF 16949 quality system dedicated to the automotive industry.

Certificate ISO 9001:2015

Certificate ISO 14001:2015

Prizes and awards

Chodziez Economic Fair

Our production of therm dowels for assembly of thermal insulation on buildings received the main prize at the Chodziez Economic Fair.

Hit 2012

We were honored as a producer of plastic elements with the Hit 2012 economic award.

Economically Local Government Hit of the Region

This is another distinction for the company PT.S. Cerplast.

Quality and Ecology

We boldly focus on the development, modernization and expansion of production.

We have a PN-EN ISO 14001: 2015 certificate.

We also received the Polish Ecology Pantheon award for conscious environmental management.

As a conscious company, we try to limit the impact of our operations on the environment, among others, the following solutions are applied:

- separate form and oil cooling systems,
- industrial water recovery,
- efficient cooling systems for chillers and drychillers,
- improved heat dissipation,
- glycol consumption reduced to a minimum,

We minimize the effects of our impact on the surrounding environment.

“Cerplast” as one of the largest employers in the region wants to build positive ties with the local community.

CERPLAST

QUALITY CONTROL:

Quality control carried out on a three steps:

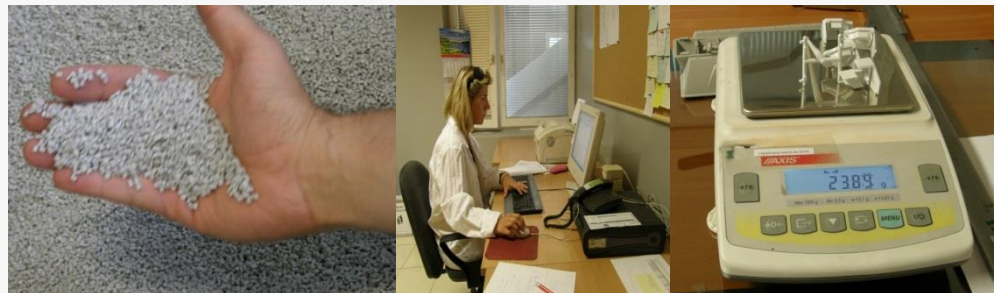

- 1- material input control
- 2- control during the production process
- 3- final control

PROCESSING MATERIALS:

- PS
- PC
- PP
- PA
- PA6.6+GF
- PE
- PBT
- ABS
- POM
- SAN
- I INNE

CHARITY ACTIVITIES:

- Professional activation of disabled people.
- Cooperation with humanitarian aid companies.
- Help for children with disabilities.
- Local community support.
